

Athena[®] PowerBidder[™] Pro

Leverage AI automation and advanced controls to optimize trading performance

stem

Athena[®] PowerBidder[™] Pro bidding software allows Stem customers to actively manage merchant battery storage assets. Energy professionals can leverage Stem's AI-driven automated tools within Athena through a full-featured user interface to oversee economic performance and directly manage assets. This combination brings greater confidence, control, and scalability.

The PowerBidder Pro Advantage

Unparalleled Control and Customization

PowerBidder Pro empowers you to formulate asset bidding strategies that align perfectly with your business objectives, leveraging insights from leading analytics.

Automation for Enhanced Efficiency

We understand that time is a valuable resource. That's why our platform offers AI-driven automation to help your team accomplish more, even as your portfolio grows. Focus on making strategic decisions while our technology handles repetitive tasks.

The Power of Athena's Forecasts and Bidding Engine

Stem's proprietary platform provides unparalleled forecasting accuracy. By integrating Athena's forecasts and bidding engine into your strategy, you can expect superior performance and optimized returns.

Comprehensive Risk Management Across Wholesale Markets

Our platform allows you to effectively manage risk across wholesale markets. Feel confident in your decision-making, informed by the latest risk analysis tools from the industry leader.

Break Free from Conventional Solutions

Unlike commercially available solutions, which offer limited options and optimization, Stem provides a refreshed approach to battery asset management.

Transparent Bidding Strategy Control

Take charge of your bidding strategy directly and dynamically. No more relying on rigid and inflexible systems—your assets, your decisions.

Streamlined Workflows and Centralized Control Points

We understand the value of seamless operations. Our platform centralizes workflows and data, streamlining your management processes for maximum efficiency.

Real-Time Performance Updates

Stay on top of your asset's performance with systematic and regular updates. No more manual-derived data or guesswork—know how your portfolio performs in real-time.

Integration of Physical Assets with Cloud Solutions

Unlike traditional cloud solutions, Stem's platform offers direct integration into physical assets, giving you unparalleled visibility and control.

About Stem

Stem provides clean energy solutions and services designed to maximize the economic, environmental, and resiliency value of energy assets and portfolios. Stem's leading AI-driven enterprise software platform, Athena® enables organizations to deploy and unlock value from clean energy assets at scale.
